

ADDENDUM 3 RE ITB 32-113B

Questions and Responses Received 1/20/24-1/30/24

A few issues were brought to our attention that we feel would be beneficial to all. This will not extend the bid deadline.

1. Zone display boxes. Currently the owner would like to omit lighting at the display boxes at this time. Please include rough ins for lighting to potential be added in the future.
2. Shaw mineral floor radius transition to be installed with 1/8" epoxy grout line between colors at radius in gathering room. Any questions can be directed to our shaw representative, Laura Upton. lupton@shawinc.com
3. It was brought to our attention that the specified system for the resin rail shown on detail 2 and 4 on sheet A402 does not exist. Please price an equal product that will accept the specified resin finish and meet the design intent.
